HUSK Oversized Ultra-Deep Rugged Case for Drone Fleets, Tactical Systems & Broadcast Kits

Ideal for field engineers, drone operators, broadcast teams, and tactical logistics units transporting Fully assembled drone systems with ground control, AV switchers, monitors, racks, and power units, Medical and lab-grade diagnostic equipment, Tactical payloads, communications kits, or large service modules and Energy storage systems and modular transport tools

The HUSK H-7154-39 is built for those who carry more — and refuse to compromise on protection. Whether it's defense-grade electronics, drone fleets, or large AV deployments, this case delivers unmatched depth, volume, and resilience in every environment.

Key Features HUSK 7154-39

Exterior Size (LxWxH)

31.4 in x 24.3 in x 17.2 in
797 mm x 617 mm x 436 mm

Interior Size (LxWxH)

28.1 in x 21.1 in x 15.4 in
713 mm x 535 mm x 391 mm

Weight (empty)

11,3

Temperature range

Min -40°C (-40°F) | Max 80°C (176°F)

Max buoyancy

90,0

Material

Lightweight NK-7 resin

Warranty

5-year warranty

IP67-certified & MIL-STD-810H tested

Dustproof and waterproof up to 1 meter deep. Tested to MIL-STD-810H methods for reliable protection against shock, vibration, and harsh environments.

NK-7 high-impact polypropylene shell

Ultra-tough NK-7 shell absorbs shock and impact under the harshest conditions.

Dual-action nylon latches

Heavy-duty nylon latches with a double-action mechanism. Secure, strong, and glove-friendly.

Pressure equalization valve

Automatic valve balances internal pressure and prevents vacuum lock during altitude or temperature changes.

Ergonomic carry handle

Non-slip, ergonomic handle for comfortable transport, even when fully loaded.

Contrasting lock handles

High-visibility lock points for quick identification and enhanced security.
